

SMU Forensic Science Summer Camp July 28-August 1 OR August 4-8, 2025

This summer, the Faculty of Science at Saint Mary's University is offering two sessions of its week-long Forensic Science Summer Camps for students 14 to 17 years old.

During the camp, students will...

- Learn about and practice forensic scientific techniques tools such as:
 - Crime scene examination and evidence collection
 - DNA extraction and examination
 - Fingerprint collection and analysis
 - Hair and fibre examination (microscopy)
 - Examination of skeletal remains
 - Examination of bloodstain and blood spatter patterns
 - Meeting with professionals in the field
- Gain experience working as a team with a common goal
- Improve levels of maturity and responsibility
- Develop self-confidence in presentation skills, project management, and critical thinking
- Explore the applications of Forensic Science to better identify areas of individual interest

Here's what we're looking for in a Forensic Science Camper:

- Students who have a keen interest in Forensic Science
- Students who are motivated and responsible
- Students who are excited to learn and participate
- Students who want hands-on experience conducting scientific research

You will need to submit:

1. Student application form (see below)
2. Essay
3. Latest school transcript

Note: Although academic performance is considered when accepting students into the program, it will not be a primary determinant of acceptance—weight will be put on student essays as well.

**To apply by email please send this application form, your transcript and essay
(labelled with your name) to: outreach.science@smu.ca**

Your application must be received by email by April 22, 2025.

Once we have processed your application, we will contact you. If you are accepted, we will send you a registration form and a consent form to complete your enrollment.
